

WHY WE ARE DIFFERENT

Our expert insurance partners offer like-for-like offers for easy comparison and full management of insurance paperwork, with all tendering and negotiations managed by us.

Having the right insurance cover for your business is vital to ensure that your business assets are protected against potential risks. From the base-level insurance that is a pre-requisite to running a business, e.g. Public Liability insurance, to more complicated policies such as Directors' and Officers' Liability insurance, it is important that you have the right policies in place to ensure future stability.

Our specialist insurance partners can provide competitive insurance quotes and ensure that you are with the right provider for your business.

Our nominated insurance partners are used to working with our clients across a wide range of industry sectors. Our recommended insurance advisors will take the time to understand your business insurance needs and will make sure that your cover meets your requirements.

We provide a personalised service which takes into account your long-term business goals. Our experts can also provide guidance on how to reduce your premiums through ensuring compliance across H&S, staff, documentation and systems.

WHAT THIS MEANS FOR YOUR BUSINESS

We work within a wide range of industry sectors and understand that each business faces different risks. We will tailor your insurance policies to suit your individual business needs, making sure that your company is protected against every eventuality.

■ FULL SERVICE RANGE OFFERED

BCR Associates has selected specialist insurance partners who can provide competitive insurance quotes for all commercial insurance areas: Business insurance; Directors' and Employees' Insurance; operations; buildings and health and life.

■ REPUTABLE SUPPLY CHAIN

To ensure complete client satisfaction we pledge to only work with insurance providers who have been thoroughly researched by our insurance partner and meet a number of requirements. We only put forward insurance solutions that we would be comfortable using in our business.

■ BESPOKE POLICIES

We will work with your business and our insurance provider to source the right insurance policy/ policies for your business. We will consider combining policies to reduce cost, assess which areas of your business may require cover that were not previously covered and secure the right policy for your business.

■ IN-HOUSE CLAIMS MANAGEMENT

Unlike many insurance brokers, our appointed insurance providers boast an in-house claims team. In offering a full end-to-end service our insurance partners have better control of the process and, as everything is done in-house, the Turn Around Time (TAT) for resolving a query will be significantly reduced.

■ PREFERENTIAL RATES

Due to our long-term relationship with our carefully selected insurance partners we are able to secure preferential rates on behalf of our clients. Our insurance provider(s) will go out to market on your behalf and seek out like-for-like offers for easy comparison.

■ CONTRACT MANAGEMENT

We understand that changing your insurance provider can sometimes be a time-consuming process. Definitions and terms and conditions can vary from insurer to insurer. We help to ensure that you have a full understanding of the policy that you are signing and to make sure that your business is covered for everything that it should be.

WHAT OUR CLIENTS SAY

BCR Associates really take the hassle and time away from dealing with the bottom line utility spends, which in turn allows my team and I to concentrate on what we do best.

Also it's a no cost review so there is nothing to lose."

Simon Critchett, Owner
Advantage Catering Equipment Ltd
